

ELECTRICAL CONTROL PANEL AND ENCLOSURE FABRICATION

A heritage of experience working for you!

When you contract with the E.S. Boulos Company (ESB) to design, construct, install, maintain or trouble-shoot your electrical enclosures, you immediately benefit from our experience and high standards of integrity and professionalism.

Founded in 1920, ESB is one of the oldest, largest and most experienced electrical contractors in Northern New England. We built our reputation on providing our customers with quality workmanship, delivered on-time.

Call ESB when you need prompt, high quality custom control panels and electrical enclosures built for your project.
